Cleaning and Sanitizing Measures 5
The State of Kuwait has taken many measures to protect its population against the spread of Covid-19. While all measures necessary to safeguard the state’s health security are maintained, diligent effort also continues to reinforce economic stability so that, God willing, we succeed in saving both people’s lives and their livelihoods.

This guide spells out the precautions and measures that must be observed by Central Bank of Kuwait (CBK) visitors upon visiting the building.

The precautions and measures are for the safety of CBK personnel in CBK main and other buildings and aims to curb the spread of the virus.

Visitors are, thus, urged to observe these guidelines at all times. This includes observing personal hygiene and safe work practices.
All visitors must remain vigilant about implementing distancing measures, including maintaining a safe distance of 2 meters between people.

Social distancing and other health measures must all be observed for all meetings.

Visitors must not enter the building if he/she shows any symptoms associated with Covid-19, and in the case of contact and interaction with a person suspected of having contracted the virus.

Visitors must wash hands with soap or use sanitizers frequently.

Provision of masks are the visitors own responsibility, and he/she must make sure to bring enough of them.
No one will be allowed into the building without a face mask on.

Health symptom checks (temperature checks) are to be implemented for all CBK visitors upon entry, in cooperation with specialized medical authorities.

Masks must be worn on the face for the duration of the visitors time in the building, including when they are in private offices wearing protective gloves is also recommended.

Removing/not wearing a face mask during the visitors presence in CBK building subjects him/her to penal measures in line with provisions of law 8/1969 concerned with health precautions against contagious disease, Health Minister Resolution 83/2020, dated 8-5-2020.

Visitors must show their Civil ID clearly to the reception to have their information written down without handing it over.
Social distancing measures are maintained while using elevators, with no more than four people entering at a time. It is also preferable to use the stairs between adjacent or near floors.

Congregational prayer will be held in the prayer hall. Please maintain all safety measures and use your personal prayer mat.

The cafés on the second floor will not be operational till further notice.
The Central Bank of Kuwait has taken several precautions to protect people in the building, including disinfecting all building facilities and offices. Cleaning and disinfecting procedures will be as follows:

The CBK shall provide sanitization products for all floors of the main and other buildings, as well as cleaning supplies needed for implementation of precautionary measures.
Thank you...
